# Audit Findings

## Audit Narrative

*The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.*

The Prison Rape Elimination Act (PREA) Recertification Audit for the Camden Community Based Facility, Alabama Department of Corrections (ADOC) was conducted on June 21, 2018. The PREA Recertification Audit was coordinated through the Alabama Department of Corrections and 3D PREA Auditing & Consulting, LLC, upon notification of being awarded the contract. Department of Justice (DOJ) Certified PREA Auditors Debra Dawson and Kenya Golden were assigned to conduct the audit. Kenya Golden served as the Lead Auditor. A line of communication was developed between the ADOC PREA Director Christy Vincent and PREA Auditor Debra Dawson to schedule the PREA Recertification Audit.

The pre-audit preparations consisted of a thorough review of all documentation and materials submitted by the facility including the "Pre-Audit Questionnaire." The documentation reviewed by the auditor included agency policies, procedures, forms, posters, pamphlets, brochures, handbooks, educational materials, training curriculums, organizational charts, and other PREA related materials the facility provided to demonstrate compliance with each PREA standard.

The PREA Auditors arrived at Camden Community Based Facility at approximately 8:00 a.m., on June 21, 2018, to begin the auditing process. An entrance meeting was held with the PREA Auditors, Acting Warden Darryl Fails, and Institution PREA Compliance Manager (IPCM) Calvin Shaw. The tour of the facility began at approximately 8:30 a.m. The auditors were escorted by the IPCM throughout the tour. The auditors were previously presented with a schematic layout of the facility that included eight buildings with identification of each building.

In addition to the tour, the site visit consisted of a thorough review of documentation, and formal and informal interviews with staff and inmates. Areas visited during the tour included the administration, entrance gate office, canteen, medical area, laundry, food services/dining halls, housing units, maintenance building (small area where cleaning supplies are maintained), multi-purpose building and recreation area.

PREA posters (in both English and Spanish) and notification of the PREA audit visit were observed posted throughout all areas accessible to inmate and staff. The notification of the PREA audit visit was documented as posted on May 8, 2018, within the six week required notification period.

Confirmation of the posting was documented by the IPCM. Staff members and inmates also confirmed the posting. Many of the inmates acknowledged that the PREA informational posters were displayed and available to them for years prior to the current audit. At the completion of the tour, the auditing team began conducting staff and inmate interviews.

Camden Community Based Facility employs 21 staff members who have contact with the inmates. Additionally, the facility has 11 volunteers and individual contractors who also have contact with the inmates. Medical Services are provided through a contract with Wexford Health Sources, Inc. Camden Community Based Facility has 2 contract medical staff who reports to the facility on Monday and Thursday for minor medical services. Inmates are transported to the Fountain Correctional Facility for all mental health and medical care as needed.

The auditing team was provided separate offices to conduct private interviews with staff and inmates. A total of 12 staff members were interviewed during the audit. This selection included staff assigned to food service; non-security staff, business office manager, mental health, and security from the three shifts. Specialized staff were selected for interview by the auditors based on their assigned specialized PREA responsibilities. Those specialized staff interviewed included: (1) Associate Commissioner of Operations; (1) Agency Contract Administrator; (1) ADOC PREA Director; (1) Acting Warden, (1) Institution PREA Compliance Manager (IPCM); (1) Incident Review Team Member; (1) Medical Contract Staff; (1) Mental Health; (1) Intermediate or Higher Supervisor; (1) Staff Who Perform Screening For Risk Of Victimization and Abusiveness; (2) Investigative Staff; (1) Designated Staff Member Charged With Monitoring Retaliation; (1) Human Resource Manager. All of the staff interviewed were knowledgeable of the agency's zero tolerance of sexual abuse and sexual harassment.

The IPCM provided the auditors with housing unit rosters that identified inmates alphabetically and by bed assignments. The rosters were provided in addition to any relative rosters that may have included information pertaining to possible targeted group of inmates for interviews.

The auditors did not receive any correspondence from the inmate population prior to the onsite audit. The auditors conducted 10 informal random inmate interviews. Twenty-two inmates were selected for random interviews. The inmates were chosen by a random selection of bed assignments. Two inmates were identified from the target group for interviews as following: (1) Inmate Identified with Physical Disabilities; (1) Inmate Identified as having reported prior victimization.

There were zero inmates at Camden Community Based Facility who were identified as meeting the following categories: Inmates who identify as Gay, or Bisexual; Inmates who identify as Transgender or Intersex; Inmates Who Reported Sexual Abuse; Inmates identified as Limited English Proficiency; Inmates in Segregated Housing for High Risk of Sexual Victimization. All inmates interviewed were knowledgeable of the agency's zero tolerance of sexual abuse/harassment and the procedures for reporting.

ADOC publishes their investigative policy on its website [www.adoc.alabama.gov](http://www.adoc.alabama.gov). The site gives an overview of their PREA Policy and provides additional information by clicking on the topic hyperlink.

## Facility Characteristics

*The auditor's description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.*

Camden Community Based Facility is located in the rural area of Camden, Alabama. The facility has no security fencing. It sits atop of a hill that is positioned away from the highway and is surrounded by trees and a forested environment. Camden Community Based Facility is approximately 100 miles from Montgomery, Alabama. The facility opened in 1959 as an Alabama Department of Transportation road crew facility.

Camden Community Based Facility consists of 8 buildings. The last major renovation to the facility was in 2015 with the renovation of the multi-purpose building. This building has varied usage: administrative space in which meetings are held; an inmate search area; visitation room (inmate visitation is held monthly, on the first Sunday); a religious service area (We Care Ministries Volunteer Group provides religious services), etc. The multi-purpose building is also occasionally used to for minimal storage needs. Additionally, the facility has an old tower remaining from the original road crew building. The tower is not actively used with the exception of functioning as a storage building.

Camden Community Based Facility has a maximum capacity rate of 90 inmates. The number of inmates admitted to the facility during the past 12 months was 33. A total of 60 inmates were reported confined at the facility on the day the audit began. The facility is an adult male from the age of 22-65 years old. The facility houses inmates with custody levels of minimum out and minimum community custody, as well as Level I and Level II custody classifications. Many of the minimum-out custody inmates are assigned to job assignments within the local community and does not require supervision by security staff during working hours. These inmates return to the facility upon completion of their scheduled hours of work.

There are 5 open bay dormitories, however, only 2 are currently being used for inmate housing (community custody inmates are housed in B dormitory; minimum custody inmates are housed in C dormitory). Due to the low inmate count, E dormitory is vacant and the remaining dormitories are utilized for various functions (A dormitory is used as a sports/television room; D dormitory is used as a television area). (Inmates are assigned to the dormitories based on their custody level and classification. The inmate dormitories have access to common area restrooms with showers and toilets. This restroom area has a door for entrance/exit.

Multiple PREA signage was posted throughout the facility. The signs were visible at the entrance point, in the food service area, the various dormitories, and above the inmate telephones in the courtyard area, etc. The auditors also observed a “PREA box” located in the hallway of the administrative area. This box is used for staff to submit PREA related complaints/concerns.

While touring the laundry room, the auditors recommended the addition of two security mirror (near the proximity of where the hot water heater is located). Since the time of the on-site audit, the ICPM has provided the auditors with verification of the mirror installation.

In accordance with a review of AR 454 Inmate Sexual Abuse and Harassment; SOP 454-2 Staffing Plan; Annual Staffing Plan Review; Staffing Plan Deviation Notification; Logs for Unannounced Rounds; ADOC Coordinated Response to Sexual Assault, Camden Community Based Facility meets the mandate of this standard.

Camden Community Based Facility has established a staffing plan which provides for adequate levels of staffing and where applicable, direct monitoring is used to protect inmates against sexual abuse. A copy of a staffing plan signed on February 18, 2018, was reviewed by the auditors.

An interview with the Acting Warden verified the staffing plan was developed considering the generally acceptable correctional practices; any judicial findings, any findings of inadequacy from federal investigative agencies, any findings of inadequacy from internal or external oversight bodies, all components of the physical plant, the inmate population, the number and placement of supervisory staff, institutional programs and the shifts they occur on applicable state or local laws or regulations, the

prevalence of substantiated and unsubstantiated incidents of sexual abuse and any other relevant information. The staffing positions are developed from the staffing plan established by ADOC.

Policy and procedures confirm deviations from the staffing plan are documented and the reasons for the deviation are noted on the Staffing Plan Deviation log for the past 12 months. A review of log book entries confirmed intermediate and higher level staff are conducting unannounced rounds as required within the agency's policy.

The Acting Warden and the IPCM conduct unannounced rounds a week. Supervisory staffs are required to conduct rounds in all areas during each shift. Supervisory staff and random staff were aware of the agency's policy prohibiting staff from notifying other staff that supervisory rounds are being conducted.

The facility utilizes security mirrors positioned throughout the facility to provide security enhancement. Additional mirror installation (in the laundry area) was recommended, that would allow staff a clear view of the space and of the inmates entering the area. The additional (two) mirrors were ordered and confirmation of installation was provided by photographs to the auditor.

The inmate is given verbal, written and understandable information explaining the ADOC's zero tolerance PREA policy including how to report sexual abuse and harassment upon their initial intake. Comprehensive PREA educational orientation is provided to the inmate population by the IPCM on the ADOC's zero tolerance PREA policy and how to report sexual abuse and harassment within 30 days of their arrival at the facility. This training is documented by the inmate's signature and maintained by the IPCM.

In the event an inmate has difficulty understanding the written material due to a disability or limited reading skills, an appropriate staff member is provided.

During the on-site audit, 22 random inmate interviews were conducted. The interviews confirmed they have received PREA information during intake thru the utilization of video (Male PREA Orientation) pamphlets and lectures. Inmates reference PREA training provided by the IPCM and numerous PREA posters throughout the facility in common areas and housing units. Many of the inmates also stated that the PREA information was posted throughout the facility years ahead of the audit.

Access to interpretation services is not only provided by the Alabama Institute for the deaf and blind but all Institutional IPCMs have access to Google Translate services through the internet. With Google Translate services and the use of microphones, the IPCM's have instant access to interpretation services in emergency situations. An electronic service available for use is the google translate service <https://translate.google.com/>. Instructions for this service are provided on a screen prompt.

In accordance with a review of the Employee Handbook; Inmate Handbook; PREA Posters and Brochure; Camden Community Based Facility Coordinated Response Plan; MOU with Department of Economic & Community Affairs for Hotline Reports; AR 454 Inmate Sexual Abuse and Harassment it is determined that Camden Community Based Facility meets the mandate of this standard. Camden Community Based Facility has multiple internal ways for inmates to privately report sexual abuse and sexual harassment, retaliation by other inmates or staff for reporting sexual abuse and sexual harassment, and staff neglect or violation of responsibilities that may have contributed to such incidents.

Additionally, there are posters throughout the facility which also inform the inmates of other reporting options. To report to an external organization, inmates can contact the Alabama Department of Economic & Community Affairs (ADECA) via a hotline as a public or private entity or office that is not part of the agency. The ADECA is able to receive and immediately forward inmates reports of sexual abuse and sexual harassment to agency officials, allowing the inmate to remain anonymous upon request.

Inmates may report sexual abuse or harassment verbally, in writing, through a third party or anonymously. They may call the PREA hotline, deposit a complaint in the PREA drop box (a secured receptacle, located at the facility), tell the IPCM, contact I&I via use of a pre-addressed I&I envelope, or they may tell any staff, contractor or volunteer and expect the information to be reported immediately and thoroughly investigated. When inmates report allegations to third parties, they should contact the ADOC concerning the allegations through the public website at **DOC.PREA@doc.alabama.gov**.

Interviews with random sample staff and inmates confirmed their knowledge of several methods to report allegations of sexual abuse/harassment. Staff and inmates were aware that inmates may report an incident of sexual abuse, sexual threats or any act of retaliation verbally or in writing, anonymously and from third parties. Staff confirmed verbal reports of sexual abuse and/or sexual harassment are promptly documented and submitted to their supervisor.

Camden Community Based Facility has policies and procedures in place that provides various methods for staff to privately report sexual abuse and sexual harassment of inmates. Interviews with a random sample of staff confirmed they may privately report any suspicion of sexual abuse or sexual harassment of an inmate by contacting their immediate supervisor, on duty security supervisor, I&I Investigator, Acting Warden and/or PREA Hotline. All allegations including anonymous allegations are investigated.
