Audit Findings

Audit Narrative

The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.

Easterling Correctional Facility provided the auditor the pre-audit questionnaire in a timely manner allowing the auditor to review documentation, policies, procedures and layout of the facility prior to the on-site visit. The PCM had the announcement placed all around the prison announcing the audit and dates. While on site the auditor toured every area of the prison even areas that were not housing inmates at the time of the audit. With the assistance of an interviewer 44 inmates were interviewed (22 random inmates and 22 inmates from the specialized list) and 25 staff working at the facility and 3 staff working out of the Alabama DOC headquarters. Also interviewed, who are not staff of Easterling, were volunteers, those providing sexual trauma counseling and those who provide the sexual assault exam. The auditor and an interviewer spent two days on site for a total of 44 man hours. The random selection of inmates and staff was done with a random number system where the auditor counts names on the specific rosters provided to the auditor the first day of the audit. Both shifts working those days were represented in the random interviews. An informal email was sent to the PREA Coordinator to share the auditor's concerns/questions for specific standards. This information is shared in the corrective action portion of this interim audit.

Facility Characteristics

The auditor's description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

Easterling Correctional Facility has 6 separate living units which are divided into 2 wings. The living areas are open bay with bunk beds. A control room sits in the middle of the wing with a Correctional Tech, not a certified correctional officer, positioned to monitor the activity on both sides. On the first day of the audit the inmate count was 1094 and on the last day of the audit the count was 1090. One of the living units is dedicated as a Drug Treatment unit and another unit is a Faith based unit where inmate character is stressed. Inmates in the program are responsible to help their fellow inmate and some of the programs are inmate led. Volunteers from the outside community also provide spiritual guidance. This positive reinforcement can be beneficial as the prison attempts to change the prison culture where inmates feel they can and should report issues to staff not only related to sexual assault and harassment but general reporting. Chaplain services are provided for all recognized religions by the Alabama DOC. The Easterling Correctional Facility has a strong volunteer program and volunteers are aware of the zero tolerance to sexual abuse and harassment. Staffing at Easterling Correctional Facility is a problem. They use staff from other Alabama state prisons coming on their days off to work a shift. They are requesting for officers to work

overtime to cover areas when they don't have the necessary officers to show up to the facility There are no cameras inside the prison living units to monitor activity either live or recording. With a low staffing ratio cameras to record and monitor live would be of great benefit to Easterling Correctional Facility. One Living unit is closed but in this living unit there are partitions for the toilets. There are no other partitions for toilets in the other living units. It would be advisable to have partitions for toilets to provide privacy for the inmate and to make cross gender viewing less obtrusive for the officer and to use a half curtain to the entrance of the shower.

Summary of Audit Findings

*The summary should include the number of standards exceeded, number of standards met, and number of standards not met, **along with a list of each of the standards in each category.** If relevant, provide a summarized description of the corrective action plan, including deficiencies observed, recommendations made, actions taken by the agency, relevant timelines, and methods used by the auditor to reassess compliance.*

conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Reviewing the policy that discusses the role of the PREA Coordinator and the established PREA Compliance managers who are Lieutenants within the prisons, interviews with the PREA Coordinator and the PREA Compliance Lieutenant for Easterling as well as viewing the organizational chart it is determined that they are in compliance. The PREA Coordinator has regularly scheduled meetings with the Lieutenants of all of the prisons within Alabama DOC as well as called special meetings with the PCM's regarding the services offered for victims of sexual abuse. The lines of communication appear to be very open even when the proximity of the prison to headquarters is not close. For all of these reasons the facility is found to be in compliance with this standard.

The documentation provide the auditor shows 100 percent compliance with all employees having a background check within the 5 year time frame. The personnel director at headquarters explained the process of how all employees are flagged to ensure that they receive a background check every 5 years.

Easterling is in compliance after reviewing the procedure in place if an inmate were to notify the prison if he was sexually assaulted. Easterling is forced to transport the inmate to a Montgomery hospital because the local hospital does not have a SANE. In the state of Alabama an ER doctor must perform the exam and collect the evidence if a SANE is not available. Mental health practitioners within the prison are afforded to the inmate and the prison works with the statewide coalition to provide a local sexual assault center advocate to provide services to the inmate if the inmate requests. It is recommended that Easterling and the Alabama DOC investigate the feasibility of having a SANE come to the prison to perform an exam to prevent from taking two officers to transport the inmate. The SANE would not be an employee of the prison or DOC but would be under contract.

The auditor reviewed training files and interviewed medical staff who are employed by a medical contractor. The training that the contractor provides all of their staff in prisons across the country is excellent information and the staff at Easterling also take the same PREA courses required of all staff. The medical staff were clear of their responsibilities and how to handle an allegation of sexual abuse when it was brought to any of their attention. The medical and mental health staff have a very close relationship and when medical staff feel an inmate needs to be seen by mental health staff they make it happen immediately by emailing and calling to get the inmate on a person's caseload. Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

During the corrective action period the auditor was provided the updated policy that addresses transgender inmates housed at Easterling. This policy addresses treatment and management of transgender inmates to ensure that they are treated safely and humanely in a correctional environment and to be sensitive to their unique adjustment needs. The auditor was also shown the new program that will allow inmates who have been designated as potential predators or victims to be seen by select staff within the prison. The psychology associates are very involved in the process and use of the PREA risk screening.

The auditor, when reviewing files, found no time when restrictive housing was used for the sole purpose of separating an inmate who had brought forth an allegation of sexual abuse. In the interview with the warden of Easterling it was conveyed to the auditor that he is committed to not in any manner punish the inmate who comes forward with an allegation of sexual assault. If separation is needed he will put the inmate into another wing or living unit. When interviewing staff they knew that RHU was not the place to put an alleged victim.

During the corrective action period Easterling issued information to the inmate population to explain to them the difference in the reporting line and the line to use if they wanted to discuss being sexual abused in their past. The prison has issued information to the inmates explaining that the reporting goes to the Alabama Department of Economic and Community Affairs. This agency has no direct relationship with the Alabama DOC. This meets the standard and now the inmates within in Easterling have been clearly told the purpose of the third party reporting line.

Standard 115.52: Exhaustion of administrative remedies

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

115.52 (a)

- Is the agency exempt from this standard? NOTE: The agency is exempt ONLY if it does not have administrative procedures to address inmate grievances regarding sexual abuse. This does not mean the agency is exempt simply because an inmate does not have to or is not ordinarily expected to submit a grievance to report sexual abuse. This means that as a matter of explicit policy, the agency does not have an administrative remedies process to address sexual abuse. Yes No NA

115.52 (b)

- Does the agency permit inmates to submit a grievance regarding an allegation of sexual abuse without any type of time limits? (The agency may apply otherwise-applicable time limits to any portion of a grievance that does not allege an incident of sexual abuse.) (N/A if agency is exempt from this standard.) Yes No NA

115.52 (d)

- Does the agency issue a final agency decision on the merits of any portion of a grievance alleging sexual abuse within 90 days of the initial filing of the grievance? (Computation of the 90-day time period does not include time consumed by inmates in preparing any administrative appeal.) (N/A if agency is exempt from this standard.) Yes No NA
- If the agency claims the maximum allowable extension of time to respond of up to 70 days per 115.52(d)(3) when the normal time period for response is insufficient to make an appropriate decision, does the agency notify the inmate in writing of any such extension and provide a date by which a decision will be made? (N/A if agency is exempt from this standard.) Yes No NA
- At any level of the administrative process, including the final level, if the inmate does not receive a response within the time allotted for reply, including any properly noticed extension, may an

inmate consider the absence of a response to be a denial at that level? (N/A if agency is exempt from this standard.) Yes No NA

115.52 (e)

- Are third parties, including fellow inmates, staff members, family members, attorneys, and outside advocates, permitted to assist inmates in filing requests for administrative remedies relating to allegations of sexual abuse? (N/A if agency is exempt from this standard.)
 Yes No NA
- Are those third parties also permitted to file such requests on behalf of inmates? (If a third-party files such a request on behalf of an inmate, the facility may require as a condition of processing the request that the alleged victim agree to have the request filed on his or her behalf, and may also require the alleged victim to personally pursue any subsequent steps in the administrative remedy process.) (N/A if agency is exempt from this standard.) Yes No NA
- If the inmate declines to have the request processed on his or her behalf, does the agency document the inmate's decision? (N/A if agency is exempt from this standard.)
 Yes No NA

115.52 (f)

- Has the agency established procedures for the filing of an emergency grievance alleging that an inmate is subject to a substantial risk of imminent sexual abuse? (N/A if agency is exempt from this standard.) Yes No NA

 Yes No NA
- After receiving an emergency grievance described above, does the agency provide an initial response within 48 hours? (N/A if agency is exempt from this standard.) Yes No NA

Grievances are not used for sexual assault or sexual harassment claims. If the inmate were to use a grievance form that information and the grievance would be sent to the IPCM who would then open up a case and involve investigations. During the initial interview with the inmate he would be informed that this was an investigation and not a grievance and the inmate would be given in writing the outcome of the investigation once it was complete. This standard is in compliance and the focus from Easterling is to pursue the investigation once they receive the information.

- Does the agency maintain copies of agreements or documentation showing attempts to enter into such agreements? Yes No

Easterling is in compliance with this standard because the Alabama DOC has an agreement with the Alabama Coalition Against Rape (ACAR). ACAR volunteers are also who is manning the phones when inmates call.

On brochures, posters and websites it is publicized that someone can make a report of sexual harassment or abuse on behalf of an inmate. This reporting can occur in numerous ways which provides different avenues for those making the report.

Reviewing the policy and procedure, through interviews with random staff with mental health staff and with inmates, it was determined that this standard is being applied and staff are aware of their responsibilities. There are no inmates housed under the age of 18 so the question asked of the auditor is not applicable in that regard. Mental health provides their informed consent language to the inmate at the beginning of any session. Staff at Easterling are fully aware of the importance of immediately reporting and keeping the information they report confidential.

This is mandated in the policy and through interviews with the warden, and shift commanders it was learned that this is the number one priority to prevent sexual assault. If there is any reason to believe an inmate is not housed in an appropriate housing unit they will place the inmate in one that will be more suitable. The warden commented that he would take it upon himself to see about moving the inmate from the open dorm style housing unit if it was believed that the inmate would do better in a cell living arrangement.

If during the PREA risk assessment the inmate reports that he was sexually assaulted at another prison or detention center then the IPCM is immediately notified. A letter/email from the Warden to the appropriate head of the other prison would be sent. Through an interview with the Warden it was learned that if this was shared about an incident that happened at another Alabama DOC prison the warden would immediately call the warden there to give them a "heads up" and then send the documentation. In the event it was not in the Alabama jurisdiction it would then be sent to the appropriate facility head. This practice and procedure is in place but there have not been many incidences of inmates reporting when they come to the prison.

Standard 115.64: Staff first responder duties

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

Through interviews with staff it was determined that all were aware of their role if they were the first on the scene or the first person to receive the information from the alleged victim. All security staff that would be working the living units were aware of all of the steps and the importance of protecting the potential evidence. In a large barracks style open dorm it will be difficult to preserve the evidence but all were aware of the process and the importance. They all knew to keep the victim with them at all times once they had informed the staff.

Through review of documentation, interviews with the warden, the IPCM, medical and mental health staff it was evident that all knew their role when an allegation of a sexual assault was made. Correctional officers during random interviews knew the process and who should be notified. They were aware of each roll the other played in addressing the situation.

Easterling and Alabama DOC do not have any unions representing any areas of work inside the prison. The IPCM is the individual responsible for monitoring retaliation against the inmate but the standard operating procedure would be to separate the staff from the inmates by placing the staff on a post where no contact is made with that inmate or if the investigation warranted the staff would be placed on leave without pay during the investigation.

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report
