## AUDIT FINDINGS

### NARRATIVE

The Prison Rape Elimination Act on-site audit of the Red Eagle Work Release Center, located in Montgomery, Alabama, was conducted on July 12-13, 2016, to determine compliance with the Prison Rape Elimination Act standards of August 20, 2012. Please refer to the National Prison Rape Elimination Act Resource Center for additional information at [www.prearesourcecenter.org](http://www.prearesourcecenter.org). The audit was conducted by Walter Sipple, United States Department of Justice Prison Rape Elimination Act certified adult facilities auditor, and no others, operating as an independent contractor with no conflict of interest. The Red Eagle Work Release Center is a male only facility and part of the State of Alabama Department of Corrections. The facility operates under the jurisdiction of the State of Alabama and is classified as a security level 2, minimum out and community custody facility. It consists of 3 housing units called dormitories. The inmate's living area is considered open bay style in design. The facility has no segregation or holding cells. The facility's maximum capacity is 340 inmates.

The audit process consists of a review of the Alabama Department of Corrections as well as the Red Eagle Work Release Center. Specifically, pre-audit preparation included a thorough review of all documentation and material submitted by the agency and facility along with data included in the completed Pre-Audit Questionnaire. The auditor received primary documentation which consists of policy and secondary documentation which consists of procedure on a flash drive for review prior to the on-site phase of the audit process. The documentation reviewed consisted of agency and facility policies, procedures, forms, education materials, training curriculum, organization charts, posters, brochures, quarterly reports, inmate population reports, memorandums of agreement, signed training rosters, community-based contact information, facility schematic, and other Prison Rape Elimination Act related materials that were provided to demonstrate compliance with the Prison Rape Elimination Act standards. This review prompted a series of questions that were reduced to writing and submitted to the Prison Rape Elimination Act Coordinator and Prison Rape Elimination Act Compliance Manager for review. Answers to the questions were submitted by the agency Prison Rape Elimination Act Coordinator and facility Prison Rape Elimination Act Compliance Manager and reviewed by the auditor prior to the on-site phase of the audit process. The agency defines the Prison Rape Elimination Act Coordinator as the Prison Rape Elimination Act Director and each facility has a designated primary and secondary Prison Rape Elimination Act Compliance Manager referred as the Institutional Prison Rape Elimination Act Compliance Manager.

During the on-site visit portion of the audit process, an entrance meeting was held with the Red Eagle Work Release Center warden, facility level Prison Rape Elimination Act compliance manager, facility lieutenant, and the auditor. The auditor was allowed access to the agency and facility in order to conduct the audit. Following the entrance meeting, the auditor toured and observed operations at the facility. The auditor contact information was posted throughout the facility prior to the on-site phase of the audit. The facility staff was fully cooperative with the auditor and audit process. A schematic layout of the facility was provided by the staff which consisted of the inmate housing areas. A list of staff, volunteers, and contractors to include assignments and roles was provided to the auditor along with listings by dormitory for a random and objective selection of inmates for interviews.

The auditor reviewed compliance with the Prison Rape Elimination Act standards based on a review of agency policy, procedure, practice, daily activities, documentation, observation, and interviews with staff and inmates. Interviews were conducted with various outside agencies, to include but not limited to, the County Sheriff's Department; local Hamilton agencies; Rape, Abuse, and Incest National Network; Prison Rape Elimination Act Resource Center; Just Detention International; and the local rape crisis center, One Place Family Justice Center of Montgomery at (334) 262-7378 and Jackson Hospital in Montgomery at (334) 293-8000; Lighthouse Counseling Center in Montgomery; Lifelines Counseling Services 24 hour hotline at (251) 473-7273, Alabama Department of Economic and Community Affairs (ADECA), and Alabama Coalition Against Rape at (334) 264-0123. The agency has a memorandum of agreement with an outside agency victim advocacy service available at no cost and confidential for the inmates at 1-800-639-4357.

Inmates were interviewed using the recommended Department of Justice protocols that question their knowledge of a variety of Prison Rape Elimination Act protections generally and specifically their knowledge of reporting mechanisms available to inmates to report abuse or harassment. Staff were questioned using the Department of Justice protocols that question their Prison Rape Elimination Act training and overall knowledge of the agency's and facility's zero tolerance policy, reporting mechanisms available to inmates and staff, the response protocols when an inmate alleges abuse, and first responder duties. An objective random sampling of staff, volunteer, inmate, and contractor interviews was selected from a series of lists presented to the auditor by the facility. Last names were randomly selected by the auditor from an alphabetically ordered list. A total of 13 agency and facility staff were interviewed per random sampling from the auditor. A total of 32 inmates were interviewed per random sampling from the auditor, along with special category inmates and a sampling identified during the in-take screening process. The auditor also conducted an after-normal-hours visit on July 12, 2016, to observe evening operations and interview night section staff. An exit interview was conducted at the end of the on-site visit by the auditor with the warden, facility captain, and facility Prison Rape Elimination Act compliance manager. The facility reported 5 allegations of sexual abuse or sexual harassment in the past 12 months. The auditor thoroughly reviewed all 5 allegations during the on-site visit phase of the audit process.

## DESCRIPTION OF FACILITY CHARACTERISTICS

The mission statement for the Alabama Department of Corrections is, as follows: "The mission of the Alabama Department of Corrections is to confine, manage and provide rehabilitative programs for convicted felons in a safe, secure, and humane environment; utilizing professionals who are committed to public safety and to the positive re-entry of offenders into society". The Red Eagle Work Release Center operates under the same mission.

The Red Eagle Work Release Center is located approximately three miles north of Montgomery, Alabama, at 1290 Red Eagle Road, in Montgomery, Alabama. It is a rural farming area adjacent to the Red Eagle Gravel Company. In 1972, the facility was opened as an agency farming operation that covers approximately 364 acres. In 1976, the facility received upgrades to house 104 inmates. After additional restructuring, the facility was upgraded to house 340 inmates. In 2015, the facility received a new video monitoring system. Red Eagle Work Release consists of 8 buildings. Building 1 is used for chemical product storage. Building 2 is used as the maintenance shop. Building 3 is used as the laundry service area. Building 4 is used as the inmate religious services chapel. Building 5 is used for inmate visitation and an inmate in-processing area. Building 6 is used for office space and Prison Rape Elimination Act compliance manager's office. Building 7 is used as the main administrative area, office space, and two inmate dormitories. Building 8 is used as an inmate dormitory. The facility has no security type fencing and is considered open in design surrounded by large open fields and farmland.

In 1976, with the approval of the Chief and Council of the Creek Indian Nation, the name of the institution was changed to Red Eagle. The main purpose to the facility is to provide suitable surroundings, work programs, and staff to assist male inmates to reintegrate into society. The staff at the facility strives to be one of the best qualified of any institution in the state.

The agency, per regulation 454, defines youthful inmates as any inmate housed in an adult facility whose age is under eighteen. The facility reported that no youthful inmates are confined at the facility. The facility reported that the age range of inmates is from age 19 up to age 68. A total of 337 inmates were reported confined at the facility on the pre-audit questionnaire. The number of inmates admitted to the facility during the past 12 months is 366.

Inmate custody classifications and security level definitions: Minimum-out custody is for inmates that are not seen as a risk to themselves or others and can be assigned to work assignments away from Alabama Department of Corrections property without supervision by correctional officers. Most minimum-out custody inmates are housed at community work centers like the Red Eagle Work Release Center; Minimum-community custody is for inmates that are not seen as a risk to themselves or others. Minimum-community custody inmates are allowed to work in the community and are housed in community based facilities when they are not working like the Red Eagle Work Release Center; Level 1 is the security level for minimum-community custody inmates at community based centers and for those on supervised re-entry programs; and Level 2 is the security level for community work centers and is where most inmates in minimum-out custody are housed. The Red Eagle Work Release Center is primarily used as a minimum-out custody facility.

The Red Eagle Work Release Center offers the following inmate programs. A pre-release and re-entry program is held once per week each month for inmates that are about to end their sentence, making probation or parole or has a pending parole hearing for the month. The course is instructed by the facility re-entry coordinator, located in the facility chapel building, with various class size each month. The adult basic education programs to include preparation for completing the General Educational Development (GED) test are held in the facility chapel building with class size limited to 20 inmates at a time. The program operates in coordination with the Ingram Community College. Alcoholics Anonymous meetings are instructed by sponsors and held in the facility chapel building. A fatherhood program is conducted with class size limited to 20 inmates at a time. A 12 week manhood program is conducted in the facility chapel building and limited to 8 inmates at a time. The Dannon Project of Birmingham, Alabama is a program specific for inmates being released, within 9 months, to Jefferson or Calhoun County. The inmate religious services are provided by volunteers from the local community. The facility offers the inmates other programs not listed such as individualized counseling, therapy, recreational activities, and vocational education. Most of the inmates that work in the local community are employed by various government agencies.

The facility has approximately 39 staff employed at the facility, 9 volunteers, 31 contractors, and no interns. The Red Eagle Work Release Center also benefits from the resources of a major city available from nearby Montgomery, Alabama, as well as the Kilby Correctional Facility.

## SUMMARY OF AUDIT FINDINGS

The agency Prison Rape Elimination Act Coordinator designated the Red Eagle Work Release Center as an adult prison in reference to Prison Rape Elimination Act standard compliance under the adult prisons and jails audit process. The audit preparation included a thorough review of all primary/policy and secondary/practice documentation and materials submitted by the agency and facility along with the data included in the completed Pre-Audit Questionnaire to demonstrate compliance with the standards. The auditor was impressed with the thoroughness of the documentation submitted. The facility Prison Rape Elimination Act compliance manager also provided the auditor with several hard copies of facility policy and instruction during the on-site phase of the audit process.

The auditor conducted a thorough facility-wide audit of the Red Eagle Work Release Center. Five sexual assault or sexual abuse harassment allegation cases were reported during the past 12 month period from the date of the audit. All five cases were reviewed by the auditor. The auditor received no requests for an interview during the audit process or inquiries from the auditor posted contact information. One substantiated incident of staff custodial sexual misconduct, violation of Section 14-11-31 of the Code of Laws of Alabama, was reported in reference to an employee of the Alabama Department of Corrections resulting in the arrest of the employee along with the employee not returning to the facility or agency. The other allegations and reports were determined to be unsubstantiated by the agency investigators. During the inmate interviews, one inmate stated that he never received a final resolution notification from a previous staff-on-inmate allegation and report. The facility Prison Rape Elimination Act compliance manager was informed and took for action.

The interviews of inmates reflected that they were aware of and understood the Prison Rape Elimination Act protections and the agency's zero tolerance policy. Inmates receive written materials at intake that provide detailed information about Prison Rape Elimination Act protections, the multiple ways to report sexual abuse or sexual harassment and ways to protect themselves from abuse. Inmates were able to articulate to the auditor what they would do and who they would tell if they were sexually abused. All facility staff interviewed indicated they had received detailed Prison Rape Elimination Act training and could articulate the meaning of the agency's zero tolerance policy.

In March 2014, the Alabama Department of Corrections partnered with The Moss Group, a nationally recognized consulting organization with over 25 years of experience working with correctional management issues, to aid the agency in complying with the Prison Rape Elimination Act standards. The Moss Group assisted the agency and facilities with staffing and safety assessments, policy review and development, technical assistance and training on internal investigations and other issues affecting facilities, staff, and inmate safety. The auditor was impressed with the agency wide commitment to become compliant with all Prison Rape Elimination Act standards.

The auditor was impressed with the large rural area, open fields, and farmland surrounding the Red Eagle Work Release Center. The facility also benefits from being close to the city of Montgomery along with the varied inmate work opportunities. The auditor noted that the facility had several veteran staff that worked at the facility providing operational consistency and stability. The inmates and staff have a focus on a community-based transition mission and program with active employment opportunities in the local community. The warden emphasizes and supports the inmate work program. The work and transition program is very popular with the inmates and keeps them primarily focused on eventual release. The auditor noted that several inmates will maintain employment with the same area employers after release which reinforces the success of the inmate work and release program. The Montgomery area offers the inmates a variety of different work and vocational opportunities. The staff and inmates were completely cooperative and helpful throughout the audit process. The agency and facility staff did a good job of providing the auditor with primary and secondary documentation to confirm compliance with the Prison Rape Elimination Act standards. The auditor was also impressed with the newly updated agency website at [www.doc.alabama.gov](http://www.doc.alabama.gov). The Red Eagle Work Release Center benefits from additional resources available to them from the Kilby Correctional Facility located in Montgomery.

The auditor noted that this audit is the first of its kind for the facility, staff, and inmates. The auditor stressed the importance of maintaining compliance as well as conducting follow-up reviews by agency and facility leadership during the exit briefing. The auditor determined that the facility is 100% compliant with the Prison Rape Elimination Act standards for this relevant review period. In addition, the auditor determined that the facility exceeds standard 115.11 by the creation of agency regulation 454 and facility policy; exceeds standard 115.31 by the extensive agency and facility training plan; and exceeds standard 115.65 by creating a detailed and easy to follow coordinated response protocol for the facility staff (facility policy). The auditor determined that standard 115.14 and 115.52 is not applicable.

## Standard 115.11 Zero tolerance of sexual abuse and sexual harassment; PREA Coordinator

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

Auditor comments: The Red Eagle Work Release Center standard operating procedure (facility policy 9-27) on inmate sexual assault and harassment awareness specifically states, "It is the policy of Red Eagle Work Center to include, all security staff, non-security staff, contract employees and volunteers to be familiar with the guidelines set forth in the standard operating procedure and to maintain a zero-tolerance policy on inmate sexual offenses, sexual harassment, and custodial sexual misconduct".

The auditor thoroughly reviewed the Alabama Department of Corrections written policy (regulation 454) toward sexual abuse and sexual harassment and it specifically outlines the agency's approach to preventing, detecting, and responding to such conduct. The agency employs an agency-wide Prison Rape Elimination Act coordinator with sufficient time and authority to develop, implement, and oversee agency efforts to comply with the Prison Rape Elimination Act standards. The Prison Rape Elimination Act coordinator, defined as Prison Rape Elimination Act director in the agency regulation, reports to the General Counsel of the Alabama Department of Corrections as reflected on the agency organizational chart. The auditor was impressed that the agency Prison Rape Elimination Act Coordinator is also a certified Prison Rape Elimination Act auditor with many years of experience and did an excellent job providing primary/policy and secondary/practice documentation to confirm compliance with the standards. The agency General Counsel is experienced with the Prison Rape Elimination Act and actively involved with agency and individual facility compliance with the standards. The Prison Rape Elimination Act compliance manager is an experienced staff member and reports directly to the facility warden as reflected in the facility organizational chart. The facility Prison Rape Elimination Compliance Manager represented the facility and agency very well during the audit process.

The Alabama Department of Corrections Administrative Regulation (454) establishes the responsibilities, policies, and procedures to implement a zero-tolerance policy for prohibiting, preventing, detecting, responding to and investigating the sexual abuse and sexual harassment of inmates under Alabama Department of Corrections care and control. Specifically, the agency Prison Rape Elimination Act regulation (454) states: "It is the policy of the Alabama Department of Corrections to maintain a zero-tolerance policy against inmate sexual abuse and harassment and custodial misconduct. Any sexual conduct, whether inmate-on-inmate or employee-on-inmate, and whether consensual or forced, is strictly prohibited". As defined in Alabama Code of Laws Section 14-11-31: "It shall be unlawful for any employee to engage in sexual conduct with a person who is in the custody of the Department of Corrections, the Department of Youth Services, a sheriff, a county, or a municipality". Any person violating the subsection shall, upon conviction, be guilty of custodial sexual misconduct which is a Class C felony. Alabama Code of Laws Section 13A-6-65.1 also defines other specific areas of the law such as sexual torture which is a Class A felony.

The agency regulation and facility policy mandates a zero tolerance policy and an implementation plan is in place outlining how the agency and facility will implement the zero-tolerance approach to preventing, detecting, and responding to sexual abuse and sexual harassment. The agency and facility has an easy to understand organizational chart and the auditor was provided a copy during the pre-audit phase of the audit. The facility staff acknowledged an understanding of the zero tolerance policy.

The auditor reviewed the Alabama Code of Laws, agency regulation, and facility policies and procedures (Alabama Code of Laws 13A-6-60 through 13A-6-70 (1975), 14-11-30 through 14-11-32, Administrative Regulation 454: Inmate Sexual Abuse and Harassment, facility Standard Operating Procedure 9-27); observed facility practices; reviewed data provided by the facility staff; and interviewed residents and staff during an on-site visit and tour of the facility. The auditor was impressed with the level of commitment that the agency commissioner, associate commissioner, agency general counsel, agency level director/coordinator, facility warden, and facility level compliance manager had toward compliance with the standards. The auditor was impressed with the facility's compliance with all of the standards. It was evident throughout the on-site phase of the audit process that all staff and residents have a thorough understanding of the agency policy and specifically the agency's zero tolerance policy. The regulation and policy forms the foundation and contains necessary definitions, sanctions and descriptions of the agency strategies and responses to sexual abuse and sexual harassment. The agency has a full-time Prison Rape Elimination Act compliance manager and alternate assigned to each individual facility throughout the State of Alabama.

Based on the listed information, the agency and facility not only complies with the standard but exceeds the standard for the relevant review

period.

Auditor comments: The Red Eagle Work Release Center has a specific facility policy (policy 05-15) in reference to a staffing plan. The auditor interviewed the agency associate commissioner of operations and the Red Eagle Work Release Center staff and verified that the staff develops, implements, and documents a staffing plan that provides for adequate levels of staffing, and, where applicable, video monitoring, to protect residents against sexual abuse. The Red Eagle Work Release Center’s policy (05-15) ensures a post is filled when a deviation from the staffing plan is necessary and notated in the deviation log. Specifically, per agency regulation 454, the Prison Rape Elimination Act coordinator shall meet with the Warden annually to assess and document if any adjustments are needed to the staffing plan, video monitoring systems and other monitoring technologies. Facilities will document the review utilizing Form 454-J: Annual Prison Rape Elimination Act Staffing Plan Review. The facility takes the following into consideration per the standard:

- 1) Generally accepted detention and correctional practices;
- 2) Any judicial findings of inadequacy;
- 3) Any findings of inadequacy from Federal investigative agencies;
- 4) Any findings of inadequacy from internal or external oversight bodies;
- 5) All components of the institution’s/facility’s/center’s physical plant (including “blind-spots” or areas where staff or residents may be isolated);
- 6) The composition of the inmate population;
- 7) The number and placement of supervisory staff;
- 8) Institution programs occurring on a particular shift;
- 9) Any applicable State or local laws, regulations, or standards;
- 10) The prevalence of substantiated and unsubstantiated incidents of sexual abuse;
- 11) Any other relevant factors.

In circumstances where the staffing plan is not complied with, the agency shall document and justify all deviations from the plan. Whenever necessary, but no less frequently than once each year, the agency shall assess, determine, and document whether adjustments are needed to:

- 1) The staffing plan established pursuant to the standard;
- 2) Prevailing staffing patterns;
- 3) The facility’s deployment of video monitoring systems and other monitoring technologies; and
- 4) The resources the facility has available to commit to ensure adequate staffing levels.

Specifically, the Red Eagle Work Release Center standard operating procedure details a step-by-step procedure on conducting unannounced rounds with documentation on facility form logging such rounds for confirmation of compliance. The rounds and logs also include procedures for conducting video surveillance checks.

The agency and facility is in the first year cycle of becoming a Prison Rape Elimination Act compliant facility. The auditor reviewed agency regulation and policy (regulation 454 and facility policy 05-15). The agency and facility meets the standard and complies with the standard for the relevant review period. The auditor specifically interviewed the facility director and confirmed the required elements of the staffing plan along with documentation to support compliance. The auditor stressed and emphasized the importance of having and maintaining a thoroughly documented facility staffing plan and the facility warden acknowledged the importance. The auditor recommended a webinar for future reference and training resource opportunities titled, “Developing and Implementing a Prison Rape Elimination Act Compliant Staffing Plan”, from the National Prison Rape Elimination Act Resource Center at [www.prearesourcecenter.org](http://www.prearesourcecenter.org).

The Red Eagle Work Release Center reported zero cross-gender strip or cross-gender visual body cavity searches of inmates that did not involve exigent circumstances or performed by non-medical staff within the past 12 months of the audit.

Specifically, the facility standard operating policy procedure details cross-gender and transgender searching and viewing. Any incidents involving cross-gender strip searches are documented in accordance with agency administrative regulation 302.

Auditor comments: The auditor met with and interviewed a number of inmates with disabilities during the on-site phase of the Red Eagle Work Release Center audit process. The agency and facility takes appropriate steps to ensure that inmates with disabilities have an equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment. The agency takes reasonable steps to ensure meaningful access to all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment to inmates who are limited English proficient. The auditor was able to confirm compliance with agency regulation (454), along with secondary documentation submitted by the agency and facility, observation, and interviews. The agency and facility has an agreement for services with the Alabama Institute for the Deaf and Blind. The nearest regional office is located at 432 E. Auditor comments: The Red Eagle Work Release Center provided the auditor with documentation confirming all new staff hires being screened within the past 12 month period. Specifically, all prospective new hires complete agency form 216-B to comply with the Standard. The Alabama Department of Corrections and Red Eagle Work Release Center does not hire or promote anyone who may have contact with inmates, and does not enlist the services of any contractor who may have contact with inmates, who has engaged in sexual abuse in a prison, jail, lockup, community confinement facility, juvenile facility, or other institution, has been convicted of engaging or attempting to engage in sexual activity in the community facilitated by force, overt or implied threats of force, or coercion, or if the victim did not consent or was unable to consent or refuse; or has been civilly or administratively adjudicated to have engaged in the activity described.

The agency and facility considers any incidents of sexual harassment in determining whether to hire or promote anyone, or to enlist the services of any contractor, who may have contact with inmates. The agency and facility performs a criminal background records check before enlisting the services of any contractor who may have contact with inmates. A process is in place for criminal background checks at least every five years for current employees and contractors who may have contact with inmates.

An interview with agency and facility staff confirmed compliance with the Prison Rape Elimination Act standard. Specifically, per agency regulation 454, the Alabama Department of Corrections Personnel Division is responsible for the completion of agency regulation 216, background investigations; form 216-B, Prison Rape Elimination Act compliance; and regulation 208, employee standards of conduct and discipline. Each new hire along with volunteers, Interns, and contractors receive a thorough background screening. Auditor comments: The auditor interviewed the agency Prison Rape Elimination Act Coordinator on June 2, 2016, and she confirmed having a secure computer-based system for inmate’s risk assessments. The auditor recently completed a required webinar in April 2016 from the Prison Rape Elimination Act Resource Center in reference to the inmate intake process. Based on interviews with random inmates and intake staff, all inmates are assessed during an intake screening and upon transfer to another facility for their risk of being sexually abused by other inmates or sexually abusive toward other inmates. Intake screening shall ordinarily take place within 72 hours of arrival and more often is completed within 24 to 48 hours of arrival. Such assessments shall be conducted using an objective screening instrument. The intake screening shall consider, at a minimum, the following criteria to assess inmate for risk of sexual victimization:

- 1) Whether the inmate has a mental, physical, or developmental disability;

- 2) The age of the inmate;
- 3) The physical build of the inmate;
- 4) Whether the inmate has previously been incarcerated;
- 5) Whether the inmate's criminal history is exclusively nonviolent;
- 6) Whether the inmate has prior convictions for sex offenses against an adult or child;
- 7) Whether the inmate is or is perceived to be gay, bisexual, transgender, intersex, or gender nonconforming;
- 8) Whether the inmate has previously experienced sexual victimization;
- 9) The inmate's own perception of vulnerability; and
- 10) Whether the inmate is detained solely for civil immigration purposes.

Any other specific information about individual inmates that may indicate heightened needs for supervision, additional safety precautions, or separation from certain other inmates.

The initial screening considers prior acts of sexual abuse, prior convictions for violent offenses, and history of prior institutional violence or sexual abuse, as known to the agency, in assessing inmates for risk of being sexually abusive. An inmate's risk level is reassessed from the inmate's arrival when warranted due to a referral, request, incident of sexual abuse, or receipt of additional information that bears on the inmate's risk of sexual victimization or abusiveness.

The agency and facility implements appropriate controls on the dissemination within the agency of responses to questions asked pursuant to this standard or order to ensure that sensitive information is not exploited to the inmate's detriment by staff or other inmates. Only limited staff has access to the risk screening form (Alabama Department of Corrections Form 454-C) through a controlled access program.

The auditor interviewed the facility staff responsible for inmate intake screening. The intake staff acknowledged the importance of the inmate intake screening process. The facility staff understood the process as well as the Prison Rape Elimination Act standard.

The auditor reviewed the agency regulation and facility policies and procedures (regulation 454 and intake screening instrument Form 454-C); observed agency and facility practices; reviewed data and documentation provided by the agency and facility staff; and interviewed inmates and staff during an on-site visit and tour of the facility. The agency and facility meet the standard and complies with the standard for the relevant review period.

Auditor comments: The auditor interviewed the Red Eagle Work Release Center Warden and Prison Rape Elimination Act Compliance Manager on July 13, 2016, to confirm compliance with the Standard. The auditor recently completed a required webinar in April 2016 from the Prison Rape Elimination Act Resource Center in reference to Standard 115.42. The auditor confirmed that agency regulation (454) specifically states, "A transgender or intersex inmate's own views with respect to his or her own safety shall be given serious consideration". The auditor observed and reviewed the agency's and facilities risk-based housing unit placement decisions and screening form. The agency and facility uses information from the risk screening to inform housing, cell, bed, work, and program assignments with the goal of keeping

separate those inmates at high risk of being sexually victimized from those at high risk of being sexually abusive.

The auditor reviewed the agency regulation and facility policies and procedures (regulation 454, 433, and 435); observed agency and facility practices; reviewed data and documentation provided by the agency and facility staff; and interviewed inmates and staff during an on-site visit and tour of the facility. The agency and facility meet the standard and complies with the standard for the relevant review period.

Auditor comments: The Auditor interviewed the Red Eagle Work Release Center Warden and Prison Rape Elimination Act Compliance Manager on July 13, 2016, to confirm compliance with the Standard. The agency regulation (454 and Form 454-H: Post Allegation Protective Custody) mirrors the standard in that inmates at high risk for sexual victimization or those who report sexual victimization shall not be placed in involuntary administrative or punitive segregation unless there has been an assessment of all other available alternatives and a determination made that there are no other alternatives available.

The Red Eagle Work Release Center reports that it does not have a segregation unit or even a holding cell. It does have the option of utilizing a holding cell at the Kilby Correctional Facility located within the vicinity of the Red Eagle Work Release Center if needed. Any form of protective custody would consist among other alternatives to include the transfer of the inmate to another facility if necessary. Auditor comments: The auditor tested the Red Eagle Work Release Center inmate phone system on July 12, 2016, during the on-site visit phase of the audit process. The agency and facility has multiple ways for inmate reporting of sexual abuse and sexual harassment, retaliation by other inmates or staff for reporting sexual abuse and sexual harassment, and staff neglect or violation of responsibilities that may have contributed to such incidents. The auditor tested the inmate phone system to confirm agency and facility access for inmate reports of sexual abuse and sexual harassment to agency and facility officials. The auditor contacted the local rape crisis center, One Place Family Justice Center (334) 262-7378 of Montgomery, Alabama; Lighthouse Counseling Center in Montgomery; Lifelines Counseling Services 24 hour hotline at (251) 473-7273, Alabama Department of Economic and Community Affairs (ADECA), and Alabama Coalition Against Rape at (334) 264-0123., and they confirmed no calls were received from inmates within the last year. These are considered outside the agency organizations. The auditor also contacted Just Detention International, which is a national advocacy organization, and they stated that they have not fielded any calls or contacts related to the facility. The auditor interviewed inmates and they were well informed concerning the inmate reporting process for anything related to the Prison Rape Elimination Act. The facility reported having no male inmate grievances. The inmates can report to any facility staff member, Prison Rape Elimination Act compliance manager assigned to the facility, call the hotline number, or submit a report in the facility’s Prison Rape Elimination Act drop box which is a secured receptacle located at each facility.

The agency has an internal reporting process written in the inmate handbook and self-addressed envelopes for the Alabama Department of Correction’s Investigations and Intelligence Division. The inmates are told to call on the inmate phone system which is recorded or correspond via mail to the Director, Investigations and Intelligence Division, P.O. Box 301501, Montgomery, Alabama 36130. The auditor reviewed the Alabama state law, agency regulation and facility policies and procedures (Alabama Code of Laws 14-11-30 through 14-11-32, Agency regulation 454, 318, and Inmate Handbook); observed agency and facility practices; reviewed data and documentation provided by the facility staff; interviewed outside organizations; and interviewed inmates and staff during an on-site visit and tour of the facility. ### Standard 115.67 Agency protection against retaliation

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

Auditor comments: The agency and facility protects all inmates and staff who report sexual abuse or sexual harassment or cooperate with sexual abuse or sexual harassment investigations from retaliation by other inmates or staff. The agency and facility shall employ multiple protection measures, such as housing unit or facility transfers for inmate victims or abusers, removal of alleged staff or inmate abusers from contact with victims, and emotional support services for inmates or staff that fear retaliation for reporting sexual abuse or sexual harassment or for cooperating with investigations. The agency regulation 454 mirrors the written language of the Prison Rape Elimination Act standard.

For at least 90 days following a report of sexual abuse, the agency and facility monitors the conduct and treatment of inmates or staff who reported the sexual abuse and of inmates who were reported to have suffered sexual abuse to see if there are changes that may suggest possible retaliation by inmates or staff, and shall act promptly to remedy any such retaliation. The Prison Rape Elimination Act compliance manager monitors inmate disciplinary reports, housing, or program changes, or negative performance reviews or reassignments of staff. Monitoring continues beyond 90 days, consisting of 30 day continuations, if the initial monitoring indicates a continuing need. Monitoring also includes periodic status checks. Any other individuals who cooperate with an investigation expresses a fear of retaliation, the agency and facility takes appropriate measures to protect that individual against retaliation.

The Prison Rape Elimination Act coordinator and compliance manager confirmed no incidents of retaliation during the past 12 month period from the date of the audit. The auditor reviewed the agency regulation and facility policies and procedures (regulation 454 and form 454-D: Sexual Abuse/Harassment Retaliation Monitoring); observed agency and facility practices; reviewed data provided by the agency and facility staff; interviewed outside agencies; and interviewed inmates and staff during an on-site visit and tour of the facility. Based on the listed information, the agency and facility meets the standard and complies with the standard for the relevant review period. Agencies must establish a policy for the protection of inmates and staff who report sexual abuse or sexual harassment, or cooperate with investigations of sexual abuse or sexual harassment. The policy shall designate staff members or departments within the agency that are responsible with monitoring any retaliation. Agencies must utilize multiple strategies to inhibit and prevent retaliation. The agency and facility meet the standard for the relevant review period.

The Investigations and Intelligence Division has numerous investigators assigned and is responsible for first responder investigative duties and facility administrative type of investigations. The agency Investigations and Intelligence Division is headquartered in Montgomery, Alabama, (334) 353-8916.

Per the standard, when an agency conducts its own investigations into allegations of sexual abuse and sexual harassment, it shall do so promptly, thoroughly, and objectively for all allegations, including third-party and anonymous reports. suspect, or witness shall be assessed on an individual basis and shall not be determined by the person's status as inmate or staff. No agency shall require a inmate who alleges sexual abuse to submit to a polygraph examination or other truth-telling device as a condition for proceeding with the investigation of such an allegation.

The agency investigators are assigned to a division within the Alabama Department of Corrections. The agency has an acknowledgement and training form along with National Institute of Corrections Prison Rape Elimination Act investigator training certificates for staff specifically referencing the required Garrity warning.

Administrative investigations include efforts to determine whether staff actions or failures to act contributed to the abuse; and are documented in written reports that include a description of the physical and testimonial evidence, the reasoning behind credibility assessments, and investigative facts and findings. Criminal investigations are documented in a written report that contains a thorough description of physical, testimonial, and documentary evidence and attaches copies of all documentary evidence where feasible. Substantiated allegations of conduct that appears to be criminal are referred for prosecution. The agency retains all written reports for as long as the alleged abuser is incarcerated or employed by the agency, plus five years.

The review team includes upper-level management officials, with input from line supervisors, investigators, and medical or mental health practitioners. The agency and facility review team considers the following:

- 1) Consider whether the allegation or investigation indicates a need to change policy or practice to better prevent, detect, or respond to sexual abuse;
- 2) Consider whether the incident or allegation was motivated by race; ethnicity; gender identity; gay, bisexual, transgender, or intersex identification, status, or perceived status; or gang affiliation; or was motivated or otherwise caused by other group dynamics at the facility;
- 3) Examine the area in the facility where the incident allegedly occurred to assess whether physical barriers in the area may enable abuse;
- 4) Assess the adequacy of staffing levels in that area during different shifts;
- 5) Assess whether monitoring technology should be deployed or augmented to supplement supervision by staff; and
- 6) Prepare a report of its findings, including but not necessarily limited to determinations made pursuant to above paragraph numbers 1 to 5, and any recommendations for improvement, and submit such report to the facility head and Prison Rape Elimination Act compliance manager.
